Rockin' Baby Shop Awarded Hitstate Website Re-design

Hitstate was awarded the web re-design of this funky children's clothing boutique in Los Angeles California. Hitstate has been working with Rockin' Baby Shop Re-branding their company for their store location opening in Eagle Rock California. We gave Rockin' Baby a new logo, a set of colors that complimented their funky retro look, material tags for their own clothing line, outside store awning as well as all their print collateral material. Then Hitstate was asked to breathe new life into their old website. We happily accepted and are now working hard on a website like no other. We are working on a ROCKIN' introduction to the website that will let users know that "THIS AIN'T NO BABY GAP"! Only Rockin' Kids allowed!
